SECTION 28. That the Regulation be, and hereby is, further amended by striking Paragraph (24) of Rule 2 of Section 9 and substituting in lieu thereof the following:

"(24) Salvage Operation - Any operation conducted in whole or in part for the salvage or reclaiming of any product or material."

SECTION 29. That the Regulation be, and hereby is, further amended by striking Paragraph (26) of Rule 2 of Section 9 and substituting in lieu thereof the following:

"(26) Standard Conditions - are 14.7 psia and a temperature of 60° F."

SECTION 30. That the Regulation be, and hereby is, further amended by adding to Rule 2 of Section 9 as parts thereof the following:

"(31) Opacity - Is that property of a substance tending to obscure vision and is measured in terms of per cent obscuration. As used in this Regulation it does not include obscuration of vision due to uncombined water droplets. The percentage opacity of a plume is numerically equal to twenty (20) times the Ringelmann number for a plume of black smoke having equivalent capacity of obscuration.

(32) Particulate Matter - Is any material, except uncombined water, that exists in a finely divided form as a liquid or a solid.

(33) Suspended Particulates - Is particulate matter which will remain suspended in air for an appreciable period of time.

(34) Emission Point - That place where emission occurs:

(35) Source - Any equipment, process or operation which causes or contributes to cause emission at an emission point or any combination of items of equipment, processes or operations which when combined cause emission at an emission point.

(36) Process Weight - Is the total weight of all materials introduced into any specific process which process may cause any discharge of air contaminant. Solid fuels charged will be considered as part of process weight, but liquid and gaseous fuels and combustion air will not. For a cyclical or batch operation, the process weight per hour will be derived by dividing the total process weight by the number of hours in one complete operation from the beginning of any given process to the completion thereof, excluding any time during which the equipment is idle. For a continuous operation, the process weight per hour will be derived by dividing the process weight for a 24-hour period by 24.

(37) Process Emission - Is any emission of an air contaminant to the ambient air other than that from fuel burning equipment, incinerator or open burning.

(38) Fossil Fuel - Coal, coke and liquid petroleum fuels other than gasoline, diesel fuels and kerosene."

SECTION 31. That the Regulation be, and hereby is, further amended by striking Rule 3 of Section 9 and substituting in lieu thereof the following:

Rule 3.4. Due allowance shall be made for visible emissions in excess of that permitted in Rule 3.1 and Rule 3.2 of this Regulation which are necessary or unavoidable due to start-up, breakdown or upset conditions provided the owner or operator shall maintain a running, current log of such start-up, breakdown or upset condition showing the time at which such condition began and ended and that such record shall be available to the Director or his representative upon request. For those operations subject to a permit it shall be permissible to omit the record of start-up conditions not in compliance with Rule 3.1 and Rule 3.2 when such start-up condition has previously been made a part of the permit.

Rule 3.5. It is expressly intended that in testing compliance with Rule 3.1 and Rule 3.2 that visible emissions tending to produce a black plume will be evaluated in terms of the Ringelmann scale and that visible emissions tending to produce a non-black plume will be evaluated in terms of equivalent opacity and expressed as percent opacity.

Rule 3.6. Visible emissions from fuel-burning equipment used exclusively to provide space heating in a building containing not more than two (2) dwelling units shall not be subject to the provisions of this Rule 3 of this Regulation.

SECTION 62. That the Regulation be, and hereby is, further amended by striking therefrom Section 10 and substituting in lieu thereof the following:

SECTION 10. INSTALLATION PERMIT, TEMPORARY OPERATING PERMIT,
CERTIFICATE OF OPERATION AND SOLID FUEL PERMIT.

A. Installation Permit

1. No person shall construct, install, reconstruct or alter any fuel-burning, refuse burning or process or control equipment pertaining thereto until an application, together with plans and specifications applicable to the work on the process or control equipment and structures or buildings used in connection therewith, has been filed by the person or his agent in the office of, and has been approved by, the Director and an Installation Permit issued by him for such construction, installation or alteration.

2. The plans and specifications, submitted pursuant to Paragraph A-1 of this section, shall show the form and dimensions of the process, fuel burning, refuse burning, or control equipment, together with the description and dimensions of the building or part thereof in which such process, fuel burning, refuse burning, or control equipment is to be located, including the means provided for admitting the air for combustion processes; the character of the fuel to be used; the maximum quantity of such fuel to be burned per hour; the kind and amount of basic materials processed; the expected air contaminant emission rate; the operating requirements; the use to be made of such process, fuel burning, refuse burning or control equipment; contaminant concentration; gas volume, and gas temperature at the emission point; physical characteristics of particulate emitted, the location and elevation of the emission point relative to nearby structures, window openings etc; a flow diagram showing the equipment under consideration and its relationship to other processes, if any, and a general description of these processes; any other reasonable and pertinent information that may be required by the Director. The plans and specifications shall show that the room or premises in which fuel, refuse burning or process equipment is to be located is provided with adequate ventilation to provide sufficient air for the process and for the safety of people.

3. Maintenance or repair which does not change the capacity of such process or control equipment and which does not involve any change in the method of processing or affect the emission of air pollutants therefrom, may be made without an Installation Permit.

4. The requirement for filing plans and specifications involving the installation, erection, construction, reconstruction, alteration, or repair of, or addition to, any fuel or refuse burning equipment or process equipment or the building of pilot plants or process, to be used or to become part of a secret process is hereby suspended upon the filing with the Bureau, in lieu of the filing of plans and specifications, of an affidavit of a responsible person to the effect that such equipment or process is to be so used. Such person shall be required to furnish bond in favor of the County and in an amount to be set by the Board. Said bond to be conditioned upon compliance with this Regulation and to provide for forfeiture upon proof of a violation of any provision of this Regulation. Provided, however, the type and emission rate of each contaminant shall in no event be deemed to be secret information subject to the protection of the provisions of this paragraph; and provided further that person claiming the protection of this paragraph shall institute and conduct a self-monitoring system and shall report the results thereof when and as

required by the Director. The suspension of the filing of such plans and specifications shall in no way relieve the person or persons responsible for the secret process from complying with all other provisions of this Regulation.

5. No construction, installation, reconstruction, or alteration shall be made which is not in accordance with the plans, specifications, and other pertinent information upon which the Installation Permit was issued without the written approval of the Director.

6. Violation of the Installation Permit shall be sufficient cause for the Director to stop all work, and he is hereby authorized to seal the installation. No further work shall be done until the Director is assured that the condition in question will be corrected and that the work will proceed in accordance with the Installation Permit.

7. If work is begun in violation of Installation Permit requirements, the Director may grant such permit, conditional upon removal of all faulty work. The Installation Permit fee shall be doubled in such cases. Provided, however, that this provision shall not be construed as authorizing such violation.

8. If the work authorized under the Installation Permit is not started within one year of the date of the Installation Permit, the permit shall become void and all fees shall be forfeited, unless an extension of time is warranted and granted by the Director.

9. An emergency repair other than as specified in sub-section A-3 of this Section may be made prior to the application for an Installation Permit if serious consequences may result if the repair were deferred. When such repair is made, the person concerned shall notify the Director on the first business day after the emergency occurred and file an application for an Installation Permit if directed to do so by the Director.

10. Upon review of the required plans and specifications, an application shall be approved or rejected within a reasonable time after it is filed in the office of the Director. Upon the approval of the application and upon the payment of the prescribed fees, the Director shall issue an Installation Permit. Issuance of an Installation Permit will not be construed to indicate compliance with the requirements of the Building Code of Hamilton County or any other regulations of Hamilton County.

10 (a) The permits contemplated by this Section 10 shall be for the control of pollution. This Section 10 shall apply to fuel burning equipment, refuse burning equipment, process equipment which causes emission, or any other equipment that tends to pollute the air, and to pollution control equipment, but nothing contained herein shall require application for, or issuance of, a permit for any overall manufacturing process provided permits are applied for, and obtained, for the foregoing items of equipment in the overall process.

11. Any person, upon receiving a rejection of an application for an Installation Permit, may modify his plans and specifications to meet the requirements of this Regulation and resubmit them to the Bureau. This procedure must be followed until approval of the application is granted.

12. The Director may reject any application for an Installation Permit and require further tests or information if:

(a) In his opinion, the proposed construction, installation or alteration or the anticipated emission of air contaminants does not meet the provisions of this Regulation.

(b) The proposed emission control equipment is of a type reasonably anticipated by the Director, not to be adequate for its intended usage.

13. No building permit shall be issued to any person by the Building Inspector for the erection, construction, reconstruction, alteration, addition or major repair of any structure when the plans or specifications for such structure include any fuel or refuse burning equipment or process equipment until such plans and specifications have been submitted to the Director and an Installation Permit issued.

14. The Bureau shall have the right to enter the premises and inspect the installation in progress at any reasonable time.

C. Certificate of Operation

(1) After the Temporary Operating Permit has been issued and it is demonstrated to the satisfaction of the Director that the fuel-burning, refuse-burning or process or control equipment can be operated in compliance with this Regulation, a Certificate of Operation shall be issued by the Director. Said Certificate of Operation shall be kept posted on or near the installation for which it was issued. The Certificate of Operation shall properly identify the equipment to which it pertains and shall specify the class of fuel, type of raw material used, if any, for which the equipment and appurtenances have been designed or which has been successfully used in the operating test. The owner or his agent shall be responsible for notifying the Director that equipment for which a Temporary Operating Permit has been issued has been tested and is ready for permanent operation. With such notification the owner shall submit to the Director test and operation data as required by the Director obtained during the temporary operating period for use as evidence that the equipment will operate in compliance with all provisions of the Regulation.

The Certificate of Operation shall be issued for a one (1) year period and shall be renewable annually. Application for renewal of the Certificate of Operation shall be made in writing upon forms furnished by the Bureau and shall be made not less than sixty (60) days prior to expiration of the Certificate for which renewal is sought. Disclosures of information, tests and other prerequisites to the issue of an Installation Permit, Temporary Operating Permit or Original Certificate of Operation may be required by the Director prior to issue of a renewal Certificate of Operation.

(2) Sampling and Testing

a. Authorization. The Director is authorized to conduct or cause to be conducted by the owner any test or tests of any new or installed equipment, the operation of which, in his opinion, can be expected to result in emissions in excess of the limitations in this ordinance, or when, in his judgment, there is evidence that any such equipment is exceeding any emission limitation prescribed in said Regulation.

The Director may, at his discretion, accept certification tests submitted by the owner if, in his judgment, these tests are sufficient to determine that the limitations of this Regulation will not be exceeded.

The Director and/or a representative of the Director shall be permitted to witness any testing.

b. Test Openings, Scaffolding and Facilities. When test(s) of existing equipment are deemed necessary by the Director and the Director elects to conduct such test himself or have his representative conduct such test, the owner shall, at his expense, provide test openings, access scaffolding and other pertinent facilities as requested by the Director. Such facilities may be either permanent or temporary, at the discretion of the owner for their provisions; and shall be suitable for determination consistent with the emission limits established in this Regulation; and shall comply with all laws and regulations concerning safe construction of, and safe practice in connection with such facilities; provided, however, that if the owner elects to provide temporary facilities then in the event future tests are desired by the Director the owner shall at his expense provide further facilities when requested by the Director.

c. Departmental Test. Nothing in these rules and regulations concerning tests conducted by and paid for by any person or his authorized agent shall be deemed to abridge the rights of the Director or his representative to conduct separate or additional tests if he so desires on behalf of the Bureau of Air Pollution Control and at the department's expense, except as in the section of this regulation covering test openings, scaffolding and facilities.

d. Cost of Test. The owner is liable for the cost of initial tests of any equipment and/or tests resulting from any change in equipment, methods or conditions of operation. Initial tests will include all testing performed for the purpose of demonstrating compliance with the Regulation for permits to install and/or operate. If the results of further tests performed by the Bureau show the owner to be a violator, the owner is responsible for paying all attendant cost for conducting such test. If said test(s) does not substantiate a violation of this Regulation, then the Bureau shall be responsible for paying all attendant costs for conducting said test(s) except those costs occurring for test openings, scaffolding and facilities. If the owner so elects to conduct his own test after any change in equipment, method or condition of operation, the owner, so electing, shall pay for the test(s) irrespective of their outcome. The data obtained during any such testing shall be made available to the Director and the owner.

e. Methods and Procedures. Sampling and analytical determinations to ascertain compliance with these rules shall be made in accordance with methods and procedures acceptable to the Director of the Air Pollution Control Bureau.

(3) When a Certificate of Operation is refused, suspended or revoked, the Director is authorized to seal the process or control equipment until the owner shall have complied with the provisions of this Regulation.

(4) Fees

The following fee schedule shall apply to the issuance of Certificates of Operation. Said fees shall be collected by the Bureau and remitted to the Fiscal Agent of the Board. Fees shall be assessed on categories identical to those in the Installation Permit Section of this Regulation.

RESOLUTION-TITLE-PROPOSAL TO REGULATE THE HOLDING OF
"ROCK FESTIVALS" AND TO REFER SAME TO THE CHATTANOOGA-
HAMILTON COUNTY PLANNING COMMISSION FOR STUDY AND
RECOMMENDATION.

WHEREAS, The Hamilton County Council is aware of the fact that the holding of open air music programs commonly referred to as "ROCK FESTIVALS" are attracting large numbers of young people from various parts of the Country, and there has been some inquiry with reference to the holding of one of the so called "ROCK FESTIVALS" in Hamilton County; and

WHEREAS, all the reports from the communities where these festivals are held indicate they result in serious disturbance of the peace in the communities, and have been harmful to the health and welfare of the people. In many instances there is a total disregard of the local health, sanitary, traffic and other laws; and

WHEREAS, The Hamilton County Council being the governing body of this County, desires to preserve the peace enjoyed by the citizens, and to protect the rights and health of our people, and to do so without abridging the right of any people to peacefully assemble; and

WHEREAS, it is our hope to discourage the holding of said "Rock Festivals" within Hamilton County - yet, to do so within the law. It being remembered there is no restrictions nor requirements for permits to hold such a festival at this time, and the purpose of this action today is to give a degree of control in this particular activity. Hamilton County has heretofore passed zoning regulations dealing with the use of property, and it would appear proper to regulate festivals described as "Rock Festivals" through proper zoning regulations, and possibly requiring Conditional permits in each instance permission is requested.

NOW, THEREFORE, BE IT RESOLVED BY THE HAMILTON COUNTY COUNCIL, that this matter be referred to the Chattanooga-Hamilton County Regional Planning Commission and Staff for study and a report back to the Council. Keeping in mind that this Council feels that possibly land zoned as Agricultural should receive serious attention inasmuch as we feel that in no event a parcel of land of less than 50 acres should be used for the purpose described as a "Rock Festival". Most assuredly, we feel that no permit should be issued unless sanitary facilities are installed and maintained in accordance with the recommendations from the Chattanooga-Hamilton County Health Department. Also, portable water supply which is pure and approved by said Department should be a necessary requirement. We suggest that the entrance and exit to the site should be approved by the Sheriff as to location, and that said roads be paved under the direction of the County Engineer. Finally, we would suggest that a bond in cash or by certified check payable to Hamilton County in a sum sufficient to meet the costs of accomplishing the requirements set out in the conditional permit be submitted with the application for a permit to hold said festival.

N O V E M B E R T E R M 1 9 7 0

BE IT FURTHER RESOLVED that the Planning Commission through its Staff report back to this Council with recommendations so that the necessary action might be taken by this Council.

STATEMENT BY CHESTER L. FROST, COUNTY JUDGE

RE: COUNTY JAIL

Prior to World War 2 when I was Assistant District Attorney General we were having complaints about the County Jail, and all through the years these complaints have continued -- and, we add, rightly so!

In 1962 the County Council permitted me to get some information on the cost of a new facility, and on February 19, 1964, we submitted plans for a new Jail with some six floors, which were prepared by Mr. Mario Bianculli, Architect. At that time the cost was estimated to be \$2,500,000.00.

Because of the cost we considered the possibility of repairing the present jail, and on request of the County Council we secured a Federal Jail Inspector to inspect said facility along with the County Council on February 15, 1967. After the inspection the Inspector advised us that it would cost more to put the present structure into proper condition than it would to build a new jail. In fact, he advised the

DECEMBER TERM 1970

present facility could not be made into a modern jail.

By this time the Architect estimated the cost to have increased to \$3,000,000.00, and the County Council, while not agreeing altogether with the plans on hand, did submit to the people of Hamilton County on May 18, 1967, the question as to whether to issue \$3,000,000.00 in jail bonds, and at that time the people voted against the proposal. I strongly advocated the issuance of the necessary bonds to meet this critical need.

The need for a new facility grew more acute and again on April 22, 1969, the County Council submitted the question of whether to issue the \$3,000,000.00 in Jail bonds and the people voted 18,752 against issuance of the bonds to 11,514 for issuance of same. Again, on this occasion as best we could we presented the terrific need for this new facility and urged our people to face reality even though in issuing said bonds we would of necessity have to raise taxes some five cents on the \$100.00 of assessed valuation.

There is still a tremendous need for a new Jail, and the last report from the Hamilton County Grand Jury stated "A new jail must be provided soon"! The report called attention to two recent jail breaks, and the danger of having to confine citizens charged with minor offenses with those charged with sex and other vile crimes, in a structure much too small to accomodate the large number of inmates. The Grand Jurors suggested that those who feel a new Jail is not necessary should give one hour of their time for an inspection of the facility. Most assuredly we believe the citizens would overwhelmingly approve the bond issue for a new Jail if they would follow this simple suggestion.

A recent report stated more than 100 prisoners were sleeping on the floor at the jail because of the large number of inmates at this time, and on November 25, 1970, U.S. District Court Judge Frank Wilson denied a petition of three prisoners to require the Sheriff to improve conditions at the jail - not because the conditions were not bad, but because he had no jurisdiction to make orders about administration of state or local penal institutions.

The time has come for the County Council to take the necessary action which will lead to the construction of a new County Jail. This Council does have the authority to issue bonds to meet this need and we must act now in my opinion! At your request we have made inquiry as to what we could do that would be helpful to this County in securing planning funds and possibly construction grants for this necessary facility. We have contacted Mr. Wendell Davis, and he is to report back to us, and a Federal Jail Inspector did advise us some months ago that it is possible we could receive some construction grants in the year ahead, but all this is not enough action for us now!

I move we immediately begin action leading to a new jail even if it means we must issue bonds in the amount necessary to construct a County Jail that will meet our needs. If there is no immediate planning grant or construction funds, then this Council

should employ an Architect to prepare the necessary plans and move with dispatch and determination....taking advantage of all grants available, but if necessary in order to have a new county jail at the earliest possible time we should issue general obligation bonds to meet this need of our people!

With your permission we will make diligent search and determine within the next few weeks whether planning or construction funds are available, and if it is found that no such funds may be secured at this time, I will report back to you so that the Council may immediately employ an Architect to prepare the necessary plans.

CALL SESSION OF HAMILTON COUNTY COUNCIL

All members of the Hamilton County Council being present on this Special Call, April 25, 1971.

The invocation was given by County Judge Chester Frost.

A welcome and reading of the Call by Judge Chester Frost.

Sunday, April
25, 1971

SPECIAL MEETING OF COUNTY COUNCIL AT THE REQUEST OF SENATOR DAN OEHMIG (ON BEHALF OF THE HAMILTON COUNTY LEGISLATIVE DELEGATION), TO CONSIDER THE PROPOSAL OF THE HAMILTON COUNTY ELECTION COMMISSION TO CHANGE PRECINCT LINES WITHIN THE CITY OF CHATTANOOGA AND REDUCE THE SAID PRECINCTS FROM 38 TO 31, ALSO TO INCREASE THE PRECINCTS FROM THREE TO FIVE IN THE CITY OF EAST RIDGE, AND TO CONSIDER OTHER MATTERS OF MUTUAL INTEREST

All present

Judge Frost announced he had received a telegram on April 23, 1971, wherein Senator Oehmig (on behalf of all members of the Hamilton County Legislative Delegation) asked that the Hamilton County Council meet on this day at 4:00 P.M. for the purpose of considering again the proposals from the Election Commission which were heard at the last

regular meeting on April 21, 1971, and also other matters of mutual concern and interest. Pursuant thereto proper notice was given to all members of the County Council of said special meeting.

Senator Oehmig thanked the Council for heeding the request and then called on Representative Bill Carter to present their request for action on the proposal to set the precinct lines as set on the map presented by Mr. John Curtis, Chairman of the Hamilton County Election Commission. After Representative Carter's presentation, and several questions from the Councilmen, as well as an in depth discussion by Mr. Curtis, those in opposition to the changes were heard.

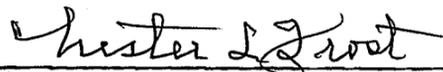

Col. H. P. Dunlap, Mr. Floyd Delaney, Mr. George Hudson, Mr. Ted Franklin, Mrs. Raleigh Crumbliss, Mrs. Walter Stamper, and others spoke for a large group of residents of Missionary Ridge in opposition to the elimination of the 14th Ward. Then, Mr. Walt Tate, Mr. Earl Rogers, Mr. Williams, and Mr. Martin Ghiden, speaking in behalf of all the colored wards within the City voiced their opposition and insisted they should have had the privilege of working with, and having a voice in the judgments relating to the precinct lines, especially as they relate to their communities.

After much discussion Judge Frost asked if there were some way the matter could be compromised. Several suggestions were made but none seemed to be satisfactory. Thereupon, Judge Frost called a ten minute recess and in the course of the recess an effort was made to work out some parts of the proposal that could be accepted.

Shortly after calling the meeting back to order, several members of the Legislative Delegation called for a decision. Thereupon, on Motion of Councilman Long, seconded by Councilman Wilson, and by a unanimous vote the Council rejected the proposals.

ON MOTION of Councilman Mayfield to adjourn the Special Call Session.

Judge Frost then presented the Hamilton County Council's Legislative proposals and explained the reason for the delay until this late date was due to the fact that several of the Acts related to the City of Chattanooga, and when Mayor Bender resigned because of ill health, it was necessary to wait until Mayor Walker was in office before he could present certain matters to him for his consideration. It was understood that certain Public Acts similar to those presented had already been introduced in the Legislature, and an offer was made to supply any information requested as it related to the Private Bills. All members had heretofore been presented with copies of the legislative acts and a cover letter explaining same. The Legislative Delegation agreed to give consideration as time would permit to the Acts presented.

In conformity with the requirements of Section 17, Chapter 156 of the Private Acts of Tennessee, 1941, funds have been budgeted for each of ten major classes of expenditures. These are:

Class 1. - Personal Services: This classification of expense covers salaries and wages, including overtime, which are paid direct to the employee, also Trustee's Commission.

Class 2. - Contractual Services: This class applies to expenses incurred as the result of contracts or agreements and includes such items as travel expense, professional and technical and mechanical services, utility expenses, automobile allowances and all services other than personal.

Class 3. - Supplies & Repair Parts: This category covers expenses incurred in the purchase of items such as office supplies, gasoline, mechanical parts, etc. Items in this category are generally consumed in use.

Class 4. - Materials: This category applies to commodities of more or less permanent nature, bought for construction or repair purposes.

Class 5. - Fixed Charges: Expenditures of a fiscal period which are generally recurring on a regular basis throughout each fiscal period, such as insurance, premiums on official bonds, etc.

Class 6. - Debt Service: The amount of money necessary annually to pay interest on the outstanding debt and the principal on maturing bonded debt.

Class 7. - Grants, Contributions and Donations: This class covers funds budgeted in lump sums to various institutions, such as Baroness Erlanger Hospital, William L. Bork Memorial Hospital and Hamilton County Nursing Home, Speech and Hearing Center and various other entities.

Class 8. - Pension and Annuities: (Non-Budgeted Accounts)

Class 9. - Capital Outlay: Expenditures which result in the acquisition or increase of fixed assets.

STATEMENT BY CHESTER L. FROST, COUNTY JUDGE,
WITH REFERENCE TO THE 1971-72 TAX RATE FOR
HAMILTON COUNTY

The County Judge, the Members of the County Council, the County Manager, and the Director of Accounts and Budgets, have worked for sometime in preparing the Budget for the coming fiscal year. We have met a number of times, and have held open meetings and listened as courteously as we know how to the requests of our citizens representing various organizations. And, with minor exceptions, we must say that all who appeared made out a good case for the funds sought. However, being unable to give all that was requested, we have, to the best of our ability, given the various organizations and functions all that our limited revenue would permit.

This has been a most difficult budget to make, and we sincerely regret to announce the necessity for a tax increase this coming year. The levy must be increased 25¢ per \$100.00 of assessed valuation inside the City of Chattanooga as well as outside of said City limits. Hence, if you are a resident of the City of Chattanooga your tax rate will be \$3.06 for each \$100.00 of assessed valuation, If you are a resident of an incorporated area outside the City of Chattanooga your tax rate will be \$3.30 for each \$100.00 of assessed valuation, and if you are a resident of the unincorporated area of the County your tax rate will be \$3.35.

First: The increased tax rate resulted in part from our decision that it would be necessary this next fiscal year to issue some \$9,000,000.00 in bonds, and this would require an increase of 13¢ in our General Debt Service levy.

a. The County Judge and Members of the Council determined after much study, that it would be necessary for us to make provisions to issue a minimum of \$6,000,000.00 in School Bonds during this next year. You will recall the Department of Education made a request which called for the issuance of some \$16,000,000.00 in General Obligation Bonds at this time. We realized the Department could use the total amount requested, but we felt this was too much of a burden for our citizens at this time inasmuch as this one issue alone would require a 24¢ tax increase.

b. It was also determined that we must take affirmative action with reference to the building of a County Jail, and we have made provisions to issue some \$2,000,000.00 in Jail Bonds during this fiscal year. Sometime ago we made application for certain federal planning and construction funds, and we have great hopes we shall receive this assistance in providing this most important facility. Hamilton County cannot ignore this need any longer.

c. The Council also agreed to the issuance this coming year of \$1,000,000.00 in General Obligation Bonds to match certain funds secured by the Trustees at Erlanger

J U N E T E R M 1 9 7 1

Hospital, to the end that Children's Hospital may be transferred to the Erlanger site. Second: The other rate increase of 12¢ for each \$100.00 of assessed valuation was in the County General Fund levy. The fund balance and expected revenue this year would not permit us to continue to operate in this area of service without a tax increase. Inflation is a part of governmental experience just as it is in the individual and family life.

Of course, the original requests as presented to the Council would have required a substantial increase. However, after the public hearings and much deliberation, your County Council, felt that it was important at this time to try to hold the tax rate as low as possible, and this we have done. We believe the Budget as adopted makes provisions for improvements in many areas of service. However, it does not provide all that should be done in particular programs, nor does it emphasize one program to the detriment of others. It is our sincere thinking the Budget does provide proper foundation for continued good government, and does so without endangering the financial soundness of our County.

ON MOTION of Councilman Mayfield, seconded by Judge Frost, the Meeting was adjourned.

GRAND JURY REPORT

April 1971

We found the Silverdale Workhouse to be a very well managed prison. All of the buildings and grounds are clean, neat and properly maintained. The kitchen area is unusually well kept and there was evidence that much fresh meats and wholesome foods are being served to the prisoners.

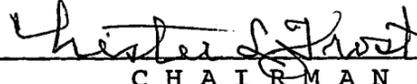

Warden Grant is to be highly commended for the manner in which he operates this facility. He has gone beyond the normal requirements of his duties to provide a program of rehabilitation and teaching for those who will avail themselves of such opportunities in order to develop constructive talents.

This man is absolutely honest and conscientious and shows a very deep concern for each of these prisoners who are his responsibility, and, in turn, the prisoners

A PROPOSED AMENDMENT TO THE
HAMILTON COUNTY ZONING REGULATIONS

TO REGULATE OUTDOOR SHOWS, PERFORMANCES, FESTIVALS, EXHIBITIONS, RACING EVENTS, AND OTHER GATHERINGS, FOR PURPOSES OF ENTERTAINMENT AND/OR PARTICIPATION OF AN ASSEMBLED GROUP OF PERSONS.

INTRODUCTION

In response to the County Council's resolution dated November 4, 1970, regarding "Rock Festivals", the staff of the Chattanooga-Hamilton County Regional Planning Commission submits this report as a recommendation of amendments to be made to the Hamilton County Zoning Regulations.

PURPOSE

The purpose of this report is to introduce proposals which would provide Hamilton County with more comprehensive controls and regulations of activities that could attract fairly large groups of persons and/or material.

PROBLEMS

Although the County Council specifically requested a study and recommendations concerning "rock festivals", the staff has expanded the study to include other activities which could cause problems similar to those associated with "rock or music festivals". For instance, the staff has received inquiries concerning cross-country motorcycle races to be held on adequate acreage located in the "outlying areas of Hamilton County. The inquirer spoke of creating facilities to accommodate many spectators. Without proper controls or regulations, the

noise, dust sanitation, and medical problems associated with such an undertaking could present serious problems to the surrounding property owners, spectators, and participants.

The adoption of the following proposals could ensure that adequate controls could be maintained over any and all activities that would tend to attract large crowds.

Specifically, the staff is proposing the following amendments to the Hamilton County Zoning Regulations:

1. Under SECTION 4A - DISTRICT - AGRICULTURAL DISTRICT REGULATIONS, add the following:
401.35 Amusement Resorts (See Sections 1304.3224 and 1304.32241)
2. Under SECTION 6C - DISTRICT - RURAL RESIDENTIAL DISTRICT REGULATIONS, delete the following:
601.31 Amusement Resorts (See Section 1304.3224)
3. Under SECTION 13 - ADMINISTRATION AND ENFORCEMENT, Section 1304.322, add 401.35 so as to make Section 1304.322 read:
1304.322 Conditional Permits as Specified in Sections 401.3, 401.35, 501.3, 601.3, 701.3, 801.1, and 1101.2
4. Delete the existing wording of Section 1304.3224 (see Addendum, page 11) and replace with the following:
1304.3224 Amusement Resorts (Permanent Facilities) to

include shows, concerts, racing events, fairs, or any other such use which is staged for the entertainment and/or participation of an assembled group of persons at or on locations where structures, buildings, and/or other facilities necessary for the public welfare are provided. A revocable Conditional Permit may be granted by the Chattanooga-Hamilton County Regional Planning Commission on condition that the proposed use and/or related activities or method of operation will not be detrimental to the surrounding area or to the public health or welfare. The approval of a Conditional Permit may allow both continuous or intermittent operation or use provided that the conditions of the permit are met.

So that the Planning Commission may evaluate the effect of the proposed use and its effect on the surrounding area and on the public health and welfare, the applicant(s) shall submit the following information with the application for a Conditional Permit.

Six copies of a site plan showing the following:

- a. Location of all buildings and an explanation of their use(s).

- b. Location of pedestrian and vehicular entrance and exit points.
- c. Location and size of all parking areas and traffic circulation routes.
- d. Location, type, and number of health, medical, and sanitary facilities approved by the Chattanooga-Hamilton County Health Department.

The permit may be revoked by the Hamilton County Judge, Chattanooga-Hamilton County Health Department, or Hamilton County Sheriff, where it appears that the use, its method of operation, or effect is in fact seriously detrimental to the character of the surrounding area, and such revocation shall not be cause for action against the Chattanooga-Hamilton County Regional Planning Commission, any other county agency, or the Sheriff, who is charged with the enforcement of this resolution.

5. Under SECTION 13 - ADMINISTRATION AND ENFORCEMENT, add the following:

1304.32241 Amusement Resorts (Temporary Facilities) to include shows, concerts, racing events, fairs, or any other such use that is staged for the

entertainment and/or participation of an assembled group of persons where structures or buildings or other facilities necessary for the public welfare are not in existence.

A revocable Conditional Permit may be issued by the Planning Commission on an adequate tract of land, located within an Agricultural District and either serviced by public roads, or by an approved ingress and egress from a public road. The approval of a Conditional Permit may allow either continuous or intermittent operation or use provided that the conditions of the permit are met.

So that the Planning Commission may evaluate the effect of the proposed use and its effect on the surrounding area and on the public health, safety, and welfare, the applicant(s) shall submit the following information with the application for a Conditional Permit:

- a. A detailed description of the intended use or purpose for requesting a Conditional Permit.
- b. The names and addresses of the property owners and officials sponsoring, owning, or directing the proposed event or use.

- c. The number of persons expected to attend.
- d. The calendar dates and time of the event.

 - 8) Location of fire-fighting equipment.
 - 9) Location of toilet and other sanitary facilities.
 - 10) Location of sheltered areas, including overnight facilities, if any.

- 1) Sufficient parking space to store and allow circulation of the greatest anticipated number of vehicles to be at the event at any time.
- 2) Guards or policemen, to be supplied by the applicant and approved by the Hamilton County Sheriff's Department.

g. Six (6) copies of an operational plan, approved by the Chattanooga-Hamilton County Health Department, concerning medical facilities. The following minimum requirements shall be met:

- 1) Toilets
 - a) Portable toilets sufficient in number and as approved by the Health Department.
 - b) Facilities will be provided for both sexes and so labeled.
 - c) Latrines or slit trenches will be acceptable providing the location, design, method of screening, and number are approved by the Health Department prior to construction.

2) Water * (All water to be from an approved source)

- a) Potable water under pressure and from an approved supply is preferred. Drinking fountains and/or faucets will be located in strategic places throughout the area.

Submission of an approved bond or certified check payable to Hamilton County, of sufficient amount to ensure that the conditions of the permit are met and for the restoration of the tract (including collection and disposition of solid waste, rebuilding of damaged facilities, etc.) following the termination of the event.

A permit may be revoked by the County Judge, Chattanooga-Hamilton County Health Department, or Hamilton County Sheriff where it appears that:

- 1) The application is materially false or purposely misleading, and such fact was not earlier discovered despite due diligence prior to such time.
- 2) The number of persons reasonably expected to attend is unexpectedly greater than the number initially projected, and the applicant(s) is (are) unable to provide sufficient monies to ensure adequate police protection or is unable, by reason of such increase, to provide proportionately greater sanitary, water, food, and other health facilities.
- 3) New or substantially changed conditions have arisen so as to imperil or materially endanger the public health, morals, safety, or welfare.

- i. The granting of approval of a Conditional Permit shall not constitute a representation, guarantee, or warranty of any kind or nature by Hamilton County or the Chattanooga-Hamilton County Regional Planning Commission, by any officer or employee thereof; or the Sheriff and/or any of his deputies of the practicability of the intended use, the safety of spectators or participants and shall create no liability upon or cause of action against such public body, official, or employee for any damage that may result to persons or property.

A PROPOSED AMENDMENT TO THE
HAMILTON COUNTY ZONING REGULATIONS
FLOOD PLAIN REGULATIONS

INTRODUCTION

In an effort to control developments in floodable areas of Hamilton County, the Chattanooga-Hamilton County Regional Planning Commission submits this report as a recommendation of amendments to be made to the Hamilton County Zoning Regulations.

PURPOSE

The purpose of this proposed amendment is to regulate development in areas specified by the Tennessee Valley Authority as floodable areas (according to the calculated 100-year flood elevation); and to regulate and restrict development in the areas specified by the Tennessee Valley Authority as the Valley Zone necessary to carry the bulk of the flood water resulting from the 100-year flood.

To accomplish this purpose, we need to be more specific in the regulation of land subject to flooding so as to protect the potential residents that are contemplating purchasing real estate in areas that are subject to flooding, and to protect other citizens who might be affected by this semi-controlled development in areas subject to periodic flooding.

The adoption of the following proposals would assist in the control of developments in the floodable areas of Hamilton County. Specifically, the amendments proposed by the Chattanooga-Hamilton County Regional Planning Commission to the Hamilton County Zoning Regulations are as follows:

1. Amend Section 2. Definitions. by the addition of the following subsections, words, and figures:

211.1 High Water Stage: The high water stage for the Tennessee River (Nickajack Lake) and its tributaries shall be that elevation determined by the Tennessee Valley Authority as the 100-year flood elevation as shown on the charts: High Water Profiles, Tennessee River, vicinity of Chattanooga, Tennessee (TVA, May 1969); High Water Profiles Chattanooga and Dry Creeks in vicinity of Chattanooga, Tennessee (TVA, November 1969); High Water Profiles Lookout Creek vicinity of Chattanooga, Tennessee (TVA, May 1969); High Water Profiles Mountain Creek, vicinity of Chattanooga, Tennessee (TVA, May 1969); High Water Profiles Stringers Branch at Red Bank-White Oak, Tennessee (TVA, May 1969); High Water Profiles North Chickamauga Creek, vicinity of Chattanooga, Tennessee (TVA, May 1969); High Water Profiles South Chickamauga Creek, vicinity of Chattanooga, Tennessee (TVA, May 1969); High Water Profiles West Chickamauga Creek and Spring Creek, vicinity of Chattanooga, Tennessee (TVA, May 1969); and any other applicable profiles as completed by the Tennessee Valley Authority.

- 218.1 Lowest Habitable Floor: The lowest habitable floor shall be taken to mean the lowest floor of any structure used for human habitation, excluding floors of garages or floors of rooms used exclusively for mechanical equipment, storage, etc. The elevation of such lowest habitable floor shall be measured at the bottom of the floor joist if said floor is constructed of wood; or the top surface of a concrete slab, or other comparable floor material not subject to damage by flood waters.
- 218.2 Materially Increase the High Water Stage: Materially increasing the high water stage shall be taken to mean raising the height of the 100-year flood by one-half (1/2) of one (1) foot at any point in the distance one thousand (1,000) feet upstream of the proposed building or fill, after the adoption of this amendment.
- 218.3 Minimum Building Site: The minimum building site is the area bounded by the building footings and/or foundation.
2. By amending Section 3. Establishing Districts and District Boundaries and Limiting the Uses of Property Therein. by striking the existing subsection 301. Division into Eight Districts. and all paragraphs, words, and figures thereof; and substituting in lieu thereof, the following:

301. Division into Nine Districts

In order to regulate, restrict, and segregate the uses of land, buildings, and structures, and to regulate and restrict the height and bulk of buildings and the area of yards and other open spaces about buildings and to regulate and restrict the density of population, the unincorporated territory of Hamilton County is hereby divided into nine (9) districts, as follows:

- A - Agricultural District
- B - Urban Residential District
- C - Rural Residential District
- D - Tourist Court and Motel District
- E - Local Business District
- F - General Business District
- G - Wholesale and Light Industrial District
- H - Industrial District
- I - Valley Zone

3. By amending Subsection 302. with reference to the Official Zoning Map, on file in the Hamilton County Engineer's office, by the addition thereto the following maps, on which the V-1 Valley Zone has been superimposed:

The Tennessee Valley Authority prepared one (1) inch equals one-hundred (100) feet Chattanooga Flood Control Topographic maps; the Tennessee Valley Authority prepared one (1) inch equals four-hundred (400) feet screenline positives; and the

Tennessee Valley Authority prepared one (1) inch equals two-thousand (2,000) feet quadrangles--Chattanooga 105 SE; Fairmont 105 NE; Fort Oglethorpe 106 NE; Hooker 106 NW; Daisy 112 NW; East Chattanooga 112 SW; and East Ridge 113 NW; the largest scale map governing in area of duplication.

4. By deleting the title and wording of Subsection 1204.7, and substituting in lieu thereof the following title, wording, and figures:

1204.7 Minimum Elevation Regulations

No residence or structure intended for human habitation shall be erected unless its lowest habitable floor is at an elevation equal to or greater than the high water stage at the point of construction. The minimum building site for said structure shall be at an elevation which is not lower than two (2) feet below the high water stage at the point of construction.

5. And, by creating a new Section 18-I -- V-1 Valley Zone. containing the following subsections, words, figures, and paragraphs:

2001. Purpose

The Valley Zone is established for the purpose of maintaining the capability of the Tennessee River (Nickajack Lake) and the Chickamauga Lake, their tributaries, and adjacent lands to drain flood waters; for the purpose of protecting the river,

lake, creek channels, streams, and flood plains from encroachment, so that flood heights and flood damage will not be increased; to provide necessary regulations for the protection of the public health and safety; and to reduce the financial burdens imposed upon the community by floods and the inundation of land.

2002. Permitted Uses

2002.1 Any lawful use permitted in the various zoning districts shall also be permitted in the portions of such zoning districts lying within the V-1 Valley Zone subject to all applicable height, yard area, setback, off-street parking, or other regulations applicable in such zone; provided, however, that no fill or structure shall be permitted (under penalty of law, as set out in Subsection 1303.2 of the Zoning Ordinance) until a special permit therefor has been issued by the Board of Zoning Appeals.

The Chattanooga-Hamilton County Regional Planning Commission shall adopt and publish criteria, procedures, and standards for the issuance of such special permits in the V-1 Valley Zone.

The Honorable Chester Frost
County Judge, Hamilton County
Hamilton County Court House
Chattanooga, Tennessee

Dear Judge Frost:

In our previous informal discussions concerning the financing of the Team Evaluation Center, we agreed that the best way to accomplish this, since the Hamilton County Council would be unable to furnish the full amount requested, was to utilize the Council money for matching purposes. Recently you were informed by Mrs. Dobson that the Tennessee Department of Public Welfare was willing to match this money with Social Security Title IV-A funds.

This letter is to confirm formally our request that the Hamilton County Council furnish the \$10,000 budgeted for the Team Evaluation Center to the Tennessee Department of Public Welfare.

We deeply appreciate the interest and support of this program as demonstrated by you and other members of the Hamilton County Council. Utilizing the above mentioned arrangement we will now be able to fully fund the present requirements of Hamilton County. We shall keep you fully informed of our services to the citizens of Hamilton County.

Sincerely,

/s/ Dale M. Engstrom
